## Relevant Experience

System Engineer • **VEF Solution** June 2023 – February 2025

- Engineered and customized ERPNext modules as a Full Stack Developer to meet client-specific requirements, improving workflow efficiency.
- Integrated third-party services (e.g., Xendit) using RESTful APIs to enhance payment systems.
- Deployed and managed web applications on Ubuntu Linux servers using Nginx, SSL configuration, and SSH.
- Designed and built responsive interfaces with Vue.js and Bootstrap, ensuring cross-browser compatibility and mobile responsiveness.
- Maintained code quality through Git workflows, unit testing, and performance optimization.
- Collaborated in Agile environments to deliver iterative improvements.

Full Stack Web Developer • **kaptenmulyono.org** March 2023

- Designed, developed, and deployed a website dedicated to a historical figure by collaborating closely with the client to ensure accurate representation.
- Created a user-friendly interface with custom styling and responsive design.
- Managed hosting, domain setup, and continuous updates using modern deployment platforms.

## Selected Projects

### Multi-Warehouse Marketplace

Developed a location-aware marketplace platform that intelligently routes customer orders to the nearest warehouse. Integrated APIs to enable real-time delivery cost estimates and address autocomplete functionality. Built a comprehensive admin interface for efficient inventory and order management. Designed an intuitive user experience to ensure a smooth and seamless shopping journey for customers.

### Personal Website

A personal website built with React and Vite, focused on performance, simplicity, and scalability. It showcases my projects, skills, and development approach in a clean, responsive layout.

## Skills

### Programming Languages

JavaScript, TypeScript, HTML, CSS, SCSS, Sass, Python, SQL

### Libraries & Frameworks

React, Node.js, Tailwind CSS, Vue.js, Framer Motion, Anime.js, Chakra UI, Jinja, Express.js, ERPNext, Sequelize.js

### Tools & Platforms

Git, GitHub, Netlify, Vercel, Firebase, Docker, Figma, Nginx, Ubuntu

## Education and Certification

### Parahyangan Catholic

#### University

Studied Computer Science

### Purwadhika Digital

#### Technology School

Full Stack Web Development Program

## Language

Indonesia (Native), English (Fluent)

## Interests

Exploring new technologies and app accessibility, long-distance travel, automotive engineering
